NOTES

3. Designate side cable opening by adding suffix "H-1" to connector number (11-20H-1). For top cable opening add suffix "H" (11-20H).
4. Unless otherwise stated, side cable opening is the same as top opening.
5. Large cable opening is available where shown. Designate by adding H-2 to connector number (14-20H-2).

Design improvements have been incorporated in several types of bins. These include drawn bins with no webs such as 50-20KJH9 outlined on page 22, and the split type which permits one side of bin to be removed for wiring inspection, outlined on page 13.
